*Forget the bus ride!  
 We'll bring the stars directly to you!*

**2 Dome Sizes: Regular Dome or Super Dome?**

- The 16-foot diameter “*Regular Dome*” fits in a typical classroom and holds up to 30 students.
- The 22-foot diameter “*Super Dome*” holds 65 students and requires a gym.
- All programming is the same regardless of which dome you choose.

**Show Topics:** The night sky • constellations • the solar system • comets • the Moon • planetary motions • stellar evolution • galaxies • space exploration • sky-lore • telescopes • weather and the seasons • volcanoes • oceanography • geography • history • cellular biology • birds & migration.

All shows are designed for specific age levels, assuring that presentations are always age appropriate. All our planetarium shows are about an hour long, are interactive, and follow current curriculum standards. *Free Teacher's Guides* are available at [www.northern-stars.com](http://www.northern-stars.com).
